### Recommendation for Splitbeam

In August 2019 the SAMRO Foundation worked closely with Fried Wilsenach of *Splitbeam theatre and professional rental specialists* to ensure that our annual event – the SAMRO Overseas Scholarships Competition for Singers.

The event was at the Linder Auditorium and included a number of performances that varied in genre from Western Art (classical) and Jazz, to Hip-Hop.

We are very grateful to Fried and his team for the efforts they made to ensure the highest professional standards for the sound and lighting at our event. The seamless flow of the multifaceted production was largely because of the diligent and focussed attention of the team, as well as their flexibility and adaptability to deal with changes in programme or stage.

(For reference a video of our event can be found on the SAMRO Foundation channel on Youtube.

As such, I do not hesitate to recommend Fried and Splitbeam as professional specialists for live events.

Kind Regards
